

## **Gorka Knörr**

Graduating in Medicine and Surgery in 1993 from the University of the Basque Country, he became specialized in Traumatology and Orthopedic Surgery in 2001. He then continued his training with a focus on children's orthopedics in Toulouse, where he ran multiple services.

More recently, he was director the pediatric trauma areas of the Barcelona Sant Joan de Déu Hospital and Vall d'Hebron Hospital. Now, with his incorporation into the Arthroscopic Surgery Unit, Gorka Knörr brings all the knowledge he has acquired throughout his extensive experience, so that pediatric patients can benefit from it.

In recent years, Knörr has dedicated part of his time to carrying out more than twenty cooperation missions in Burkina Faso, Vietnam, Benin and Bolivia.
