

## Gorka Orive

Gorka Orive is Full Professor of Pharmacy & Pharmaceutical Technology at the University of the Basque Country in Vitoria in Spain. Professor at the University Institute for Regenerative Medicine and Oral Implantology - UIRMI and scientist at Networking Biomedical Research Center on Bioengineering, Biomaterials and Nanomedicine, CIBER-BBN and appointed as Adjunct Principal Researcher at the Singapore Eye Research Institute, The Academia, 20 College Road, Discovery Tower Singapore.

Dr. Orive is one of the pharmacists (as scientists) with more international articles in Spain by the age of 46, with 400 international papers, 70 national articles, an H-index of 92 and more than 27.500 citations. In addition, in the recent "Top Scientific Rankings" classification prepared by Stanford University, I head the list of the most influential Spanish researchers in the world in Pharmacy and Pharmacology, and I am among the top 30 scientists in the world in this category, considering active researchers whose first article is in the 21st century. I have been also a relevant science communicator during the pandemic in twitter: @gorka\_orive (more than 117,000 followers).

Dr Orive is scientific advisor of Pharma companies (GSK, Roche, Bayer), and the biotechnological company BTI Biotechnology Institute. He also founded the company Geroa Diagnostics ([www.geroa.net](http://www.geroa.net)) about Alzheimer's diagnosis by salivary biomarkers.
