WELCOME ADDRESS

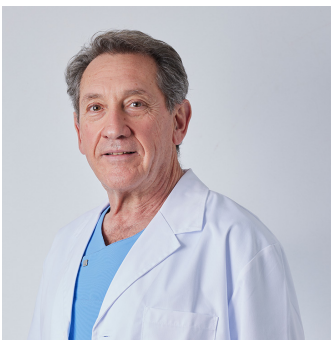

We are honored to welcome you to the 1st MIKS International Congress on Biological Therapies, which will be held on April 3, 4 and 5, 2025 in the city of Vitoria-Gasteiz (Spain). This event marks a significant milestone as the first congress of this magnitude to be organized by MIKS (Medical Innovation Knowledge Sharing), an innovative initiative whose main objective is to create a community to enhance knowledge sharing and promote collaboration in the medical-scientific field of biological therapies, always with the patient at the center.

The congress is designed to provide a comprehensive update on biological treatments in orthopedic surgery and sports medicine, explore the present and future of these therapies in this and other applications such as pain medicine, as well as evaluate the potential of biological therapies as a preferred practice in the coming years. Therefore, over these three days, crucial topics related to platelet-rich plasma (PRP) and cell-based therapies and their application in various medical disciplines will be addressed from a multidisciplinary and translational approach. To this end, we will count on the participation of leading international names in these fields, who will share their knowledge and experiences, thus enriching the debate and the learning experience for all attendees.

However, this is not the only incentive. Our choice of Vitoria-Gasteiz is no coincidence. This city, known for its rich history, its commitment to sustainability and its warm welcome to all those who visit it, provides the perfect location for the 1st MIKS International Congress on Biological Therapies. It is an honor for us to organize this event here, in our city, which has made its name in the pioneering and development of such therapies, and which we hope will continue to be of international reference in this field. Our goal is for Vitoria-Gasteiz to continue to occupy a place on the global map of medical innovation, particularly in the field of biological therapies and regenerative medicine.

We warmly invite you to join us on April 3, 4 and 5, 2025 in Vitoria-Gasteiz to participate in this event into which we have poured so much of our experience and dedication.

See you soon.

Dr. Mikel Sánchez
